Congressman Ross and Congresswoman Castor:

On behalf of its membership, the National Association of Professional Surplus Lines Offices (NAPSLO) is pleased to support H.R. 1422, the *Flood Insurance Market Parity and Modernization Act of 2017*. NAPSLO appreciates your leadership and continued efforts to ensure that consumers have access to private flood insurance options, should they choose.

NAPSLO is the professional trade association representing the surplus lines industry and the wholesale insurance distribution system. Comprised of approximately 400 wholesale broker member firms, 100 surplus lines insurance companies, and 200 associates and service providers to the surplus lines market, our membership operates in more than 1,500 offices representing tens of thousands of individual brokers, insurance company professionals, underwriters and other insurance professionals worldwide – all of whom are committed to the wholesale distribution system and U.S. surplus lines market.

The *Flood Insurance Market Parity and Modernization Act of 2017* amends the definition of private flood insurance to ensure surplus lines insurers are eligible to offer private market solutions and alternatives to consumers in need of unique and complex flood risks. Although surplus lines insurance companies are currently allowed to provide private flood insurance, the definition of private flood insurance should be revised to remove any uncertainty that surplus lines insurance companies are eligible to provide insurance in the insured's home state, in accordance with the *Nonadmitted and Reinsurance Reform Act of 2010*, and to ensure policyholders access to the surplus lines market alternatives. This clarification will assist banks and in ensuring consumers flood risks are adequately covered.

NAPSLO and its member companies congratulate you on the introduction of common-sense legislation which recognizes the nature of our industry.

Sincerely,
